MEMORANDUM FOR THE RECORD

SUBJECT: Space

25X1A

25X1A Per discussion with Mr. Lawrence R. Houston, the undersigned contacted Mr. [] relative to the proposed move of the Special Contracting Officer's staff to Curie Hall, with the resulting burdens between our J Building Office and the Special Contracting Officer. Mr. [] stated that he was most sympathetic to the problem, but that space had become so critical in the buildings concerned that "something had to give." That something happens to be the Special Contracting Officer, who will be required to perform his functions under most adverse conditions, to wit, the walking between J Building and Curie Hall. I indicated to Mr. [] that our concern was prompted by our desire to furnish adequate services to the Deputy Director (Plans) offices. He expressed his satisfaction with the present services and thanked us for the kind thoughts.
